I'm devastated by what happened here, in the year 2017 you expect this to be something would be impermissible. These people were good people, just like you and me, and my heart breaks for them. The council seem to cut corners for the sake of a few thousand pounds, costing peoples homes, lives and families! Boris Johnson should never have cut the fire services. This country has had more than its fair share of disasters recently this one could possibly have been avoided or at least reduced in terms of its impact. I hope the enquiry leads to improvements in the fire safety of tower blocks. No amount of change however will affect the significant and tragic loss of life to the people who were occupying Grenfell Tower on the night of the fire.
